As a result of my Trollwood involvement I have learned…

I have learned many skills to be better in the arts. I have also learned how to be more confident and creative.

I would tell someone who has never participated in Trollwood that…

Trollwood is a place where you can learn in a fun and encouraging environment while making new friends. It has been my favorite part of the summer for many years.

Three of my most vivid Trollwood memories are…

1. Laughing while coming up with ideas for sketch comedy
2. Hanging out with friends outside in the sun
3. Playing games during improv

My future plans are…

I plan to go to college and eventually pursue a career in film.
